Highlights

Bass beat vents

Bass beat vents allow air movement for better sound with a deep rich bass

24 k Gold-plated plug

You can rest assured that the precious metal gold finishing on the plug will give you a more reliable connection for better quality audio.

Air cushioned caps

Air between the cap and the driver gives you a soft feel like a pillow as it reduces the pressure on your ears.

13.5 mm speaker driver

Small enough for optimum wearing comfort and big enough to deliver undistorted sound, an ideal size for listening enjoyment.

Contoured ear hook

The ear hook stays put behind your ear even when you're on the move, keeping the earphone comfortably in place and sounding great. The ear hook is the part that is in contact with the back of your ears and keeps the headphones on your ears

Designed for active use

Whether you are out running, cycling or taking part in any active pastime, this headphone will stay comfortably in your ear.

Flexi-grip design

The soft flexi-grip material that the body of the headphone is sheathed in enhances its performance and extends its durability. It protects the cable connection from damage that otherwise could occur due to repeated bending of the headphone body from frequent contact with the user's fingertips when being put on and removed.
